Disclaimer

This communication contains certain forward-looking statements, e.g. statements using the words "believes", "assumes", "expects", or formulations of a similar kind. Such forward-looking statements are based on assumptions and expectations which the company believes to be well founded, but which could prove incorrect. They should be treated with appropriate caution because they naturally involve known and unknown risks, uncertainties and other factors which could mean that the actual results, financial situation, development or performance of the company or Group are materially different from those explicitly or implicitly assumed in these statements. Such factors include:

The general economic situation / Competition with other companies / The effects and risks of new technologies / The company's ongoing capital requirements / Financing costs / Delays in the integration of acquisitions / Changes in operating expenses / Fluctuations in exchange rates and raw materials prices / Attracting and retaining skilled employees / Political risks in countries where the company operates / Changes to the relevant legislation / Realization of synergies / Other factors named in this communication

If one or more of these risks, uncertainties or other factors should actually occur, or if one of the underlying assumptions or expectations proves incorrect, the consequences could be materially different from the assumed ones. In view of these risks, uncertainties and other factors, readers are cautioned not to place undue reliance on such forward-looking statements. The Company accepts no obligation to continue to report or update such forward-looking statements or adjust them to future events or developments. The Company emphasizes that past results and performances cannot lead to conclusions about future results and performances. It should also be noted that interim results are not necessarily indicative of year-end results. Persons who are unsure about investing should consult an independent financial advisor.

This document constitutes neither an offer to sell nor a call to buy securities of dorma+kaba in any legal system.

Kaba®, DORMA®, Com-ID®, Ilco®, La Gard®, LEGIC®, SAFLOK®, Silca® etc. are registered brands of dorma+kaba Group. Country-specific requirements or business considerations may mean that not all dorma+kaba Group products and systems are available in all markets.

- Type sizes

- Function keys

dormakaba

Option package overview

Terminal 96 00 is available in three upgrade versions:

Option package 96 20	Option package 96 40	Option package 96 60

Starter version

Reliable, easy and precise time recording

Standard version

Additional use of access control functions

- Door monitoring and control

- Linking of offline door components via CardLink

Premium version

For enhanced security and Comfort

- Encrypted data transmission

- Saving of up to 10,000 persons

Terminal 97 00

- Integrated proximity sensor

- Time recording and employee communication combined

- Customizable user interface

- Integration of multimedia content (training films, corporate apps, employee news)

- Integration of customized acoustic command signals

Additional options

1. Camera system

2. Biometric reader

   - Fingerprint identification

   - For enhanced security: can be combined with a standard RFID reader or PIN entry for even more security

dormakaba

- Kombinert komme/gå/jobbregistrering
- 9 eller 25 funksjonstaster
- RFID leser, f.eks. Mifare, HID, Legic, magnetstripelser
- Kan ha 2 lesere, f.eks strekkodescanner
- Ethernetinterface
- Power over Ethernet
- Online/Offline og stand alone modus
- Grafisk LCD display, 240 x 128 punkter
- ca.200 master records + ca. 4000 registreringer off-line
- IP 30/IP 54
- Dockingstasjon

dormakaba

B-Web 9500

END OF LIFE

Kan bestilels frem til 30/6

Kan vi bruke fingeravtrykk på terminaler i Norge ?

- JA, vi kan levere dette til kunder i Norge i dag

- MEN- Alle ansatte må skrive under på at det er OK at bedriften bruker fingeravtrykk som ID på terminalene.

- OG WinTid støtter ikke lagring av biomtriske kjennetegn enda. Derfor må dette lagres/kjøres eksternt og linkes mot WinTid.

- Prereq: En ekstern USB dongle som brukes ved innrullering av fingeravtrykk, med tilhørende SW

dormakaba

Terminal 9160

Adgangskontroll

Kommer for tidsregistrering

Mulighet for temperatur-måling

Filter for ansiktsmaske

RFID og QR koder kan leses

Kommer på flyplasser i nær fremtid !
