## 1. What's New in WinTid Version 2026.01.4

WinTid version 2026.01.4 was released on January 27<sup>th</sup>, 2026.

### 1.1 WinTid Staffing: Make Staffing Summaries Available to Others

Staffing summaries can now be made available to other users with read-only access. Select Staffing Summaries in Work Schedule Overview or Work Schedule Templates, and mark the desired summaries as Available to Others.

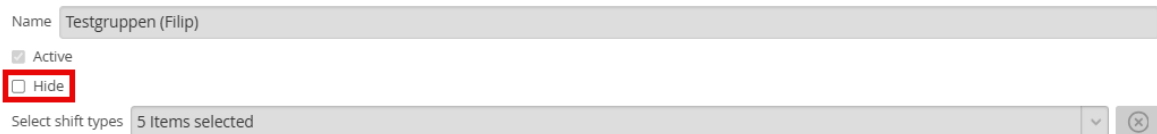

Name Testgruppen (Flip)

Active

Available to others

The staffing summary will then be visible to all users in the selected location. However, only the user who created the staffing summary can make changes to it. To hide a shared staffing summary, select Staffing Summaries, choose the relevant summary, click Hide, and save.

Name Testgruppen (Flip)

Active

Hide

Select shift types 5 Items selected

Please note that when working in Work Schedule Templates, the template must also be saved for the change to be retained the next time it is used.
