1. What's New in WinTid Version 2026.03.6

WinTid version 2026.03.6 was released on March 17th, 2026.

1.1 Program Setup Rewritten to Vue

Program Setup has been rewritten to Vue. The functionality in the different tabs remains largely the same, but some changes have been made in certain tabs.

1.1.1 Employee Setup and Manager Setup

In Employee Setup and Manager Setup, minor changes have been made to how categories are selected for display in Totals. Click the Total setup button to view the selected categories or to make changes.

Reg. types in Maintenance	6 Items selected
Available overtime codes	4 Items selected
Available absence codes	25 Items selected
Available extras	6 Items selected
Available minWinTid pages	13 Items selected
Start Page	Registration

Total setup

Click a category in the Available Categories list on the left to select it. Click the category in Selected Categories on the right to choose the result type, either Attendance totals, Absence totals or Overtime/extras. You can also choose Calculate grand total from or Totals of class "xx of xxx". Click the red X to the right of a category to remove it from the setup.

Confirm

Click Confirm to save the changes or Cancel to discard them.

1.1.2 Follow-up Setup

In Follow-up Setup, you must now click Category warning setup to make changes to category warnings.

Click a category in the Available options list on the left to add it to the selected options. Then click the category and choose what should trigger warnings, as before. Click the X button to remove a category.

1.1.3 Approval setup

Approval setup works as before, but to move a category up or down you must use the arrows to the right of the category.
