# 1. What's New in WinTid Version 2026.04.2

WinTid version 2026.04.2 was released on April 21<sup>st</sup>, 2026.

## 1.1 Assigning temporary WEA setups

It is now possible to temporarily assign WEA setups to employees for limited periods. This is done in Personnel – Personalia – WEA Setup.

Temporary WEA setup

Working Environment Act setup	From date	To date	Actions
47   26 uker	01/04/2026	30/04/2026	<span style="border: 1px solid #ccc; padding: 2px 5px; color: #0070C0; font-size: 12px;">✎</span> <span style="border: 1px solid #ccc; padding: 2px 5px; color: #C00000; font-size: 12px;">✖</span>

At the top of the tab, the currently active setup is displayed. Below this, assigned WEA setups are shown, which work as before. Below that, temporary WEA setups are shown, which must be entered with a from and to date and will only be used during that period.

An active temporary WEA setup overrides the assigned WEA setup, which in turn overrides the default setup configured in System Settings – Program Setup – WEA Setup.
