WinTid version 2026.04.4 was released on April 28th, 2026.

1.1 WinTid Staffing: Comments in Work Schedule Overview

It is now possible to add comments on days in the Work Schedule Overview. Click the speech bubble icon on the day to add a comment.

The comment is linked to the selected location. If the comment should be visible to everyone, check "Show to all". When there are comments on a day, the speech bubble will have "content" in the form of lines. Hover over the speech bubble to see comments on the day without clicking on it.
