1. What's New in WinTid Version 2026.05.2

WinTid version 2026.05.2 was released on April 12th, 2026.

1.1 WinTid Staffing: Holiday setup

Menu access: Staffing – Holiday setup

It is now possible to control what happens to shift types on holidays when Work Schedule Templates are rolled out. To access the page, "Staffing - Holiday setup" must be assigned in Menu access. The setup is configured per location in Staffing – Holiday setup. Select a location at the top of the page to begin.

Julaften	Uke 1 - Helg · Test og Release	Uke 2 - Hverdag · 08:00 - 16:00 · 7.5 · Test og Rele...	

Save

Under "Holiday setup defaults", you can define what should happen to shift types on holidays. Click "Add" to add a row. Select a holiday type, and then either check "No shift type on the day" to remove the shift type, or select a shift type under "Always use this shift type".

Under "Holiday setup overrides", you can set up rules to switch from one specific shift type to another on holidays. These rules override rows added in the defaults. Click "Add" to add a row. Select a holiday type, and then select "From shift type" and "To shift type".

Click "Save" to save the setup.
